Daph says there is no shame in takeout after a day like today, but there sure is a hell of a lot of saturated fat. (<https://www.livejournal.com/away?to=http%3A//www.fitday.com/webfit/publicjournals.html%3FOwner%3Dcvillette%26Year%3D2007%26Month%3D9%26Day%3D15>)

And yes, no, there is no excuse under heaven for the egg mcmuffins, but I was in a hurry and starving to death and there's a McGreasy's by the Metro station.

Still not enough calories. And I was slamming all day on the pattern rec for that SLC case.

Which *still* may not even be ours.

Starving. Too tired to eat. Going to bed.

I'll make it up in the morning.

Hey there. Sorry about the drama. It was... it was an emotional decision, and I didn't handle it well. So yeah, I'm

Oh, man, it's a roller coaster, ain't it? Damned calories.

I feel guilty about SLC. I mean, it's not that I shouldn't have said anything, but, you know, this is sort of my boogeyman. And here you are doing most of the heavy lifting.

But whether it's ours or not, man, this is *nuts*. He *can't* be smarter than we are. He's blitzing these people. All the smart is in the hiding, and covering his tracks.

Oh, bugger it. G'night, Frog Prince. Sleep like a sleeping thing, have a humongous breakfast, and tomorrow will be a whole new shiny day.

...is he smart enough to be pretending to be disorganized to cover a signature? I mean, could he pretend to one signature to cover another one?

I mean, okay. Not all serial killers *have* signatures. That's one of those TV things. And they do change MO at will, unless it's the bit that hits them in the kink.

Look at Bundy, for example.

Did you notice I wasn't limping?

Okay, so it *was* just a scrape. Sorry, man, I should trust you to know the difference between lacerations and contusions. (Especially since I can't always be there to clean up after you \*g\*)

Platypus? What if it's *two people*? One cleaning up after the other?

You always have been there when I needed you so far, Daphs. Though if I have to get electrocuted every time I want a smooch, you'll forgive me if I don't take our relationship to the next level.

And you know, it could be a pair. So we need to look for two people relocating to SLC. Which tends to indicate that it's not Ours, and we can give it back to Pauley. (Not that I want to slough more work onto Pauley, but really, what goes around comes around, Pete.)

Come on, let's go get something gloriously unhealthy for lunch and jaw it over. Hot wings?

I know that icon!

Have you been to Portland? (Also, SNZ, yay!)

Coyote!

Portland? Yes. How come?

Well, firstly because that's where he is--riding the MAX out by the Portland International Airport--and second because I like Portland a lot. (: I miss it.

He is? A friend made me the icon (she makes all my icons. She feels strongly that internet conversation should come with mood indicators) so I didn't know the source.

That's awesome. He's not just a commuter coyote. He's an airport commuter coyote.

From the highly influential 'DogsInTheNews.Com'...

And I'm also a big fan of using icons as an additional means of conveying information. Especially on the internet, where all the nontextual cues are stripped away. I like your friend already. (:
